

# Welcome to the Derbyshire Caving Club.

Whether you are a new member or just interested in joining, we hope the information in the special newsletter and in the more formal information sheet will tell you enough about our aims to encourage you to take your caving and mining interest further.

We have a website ([www.DerbysCC.org.uk](http://www.DerbysCC.org.uk)) which tells you about the Club and its activities although parts of the site with personal addresses and so on are not generally available until you join the Club. You can use the website to get in touch with the Club or, if you are receiving this at a Club event or from an existing member, you may want to use the space below to make a note of his or her telephone number and contact details.

You can also get and fill in a Club membership form but as you will need a member to propose and another to second your application, you are strongly recommended to get to know some Club cavers or miners before you send in the form. It also helps if you have a go at some simple cave or mine trips too so that you know it is what you want to do. New members are also required to fill in a log sheet before joining fully.

We look forward to welcoming you into the Club.

## USEFUL CONTACTS:

Name: ..... Tel no: .....

E-mail:.....
